

July 21, 2023

Aridhia informatics Limited
163 Bath Street
Glasgow Lanarkshire G2 4SQ, United Kingdom

Based upon representation from management as to the accuracy and completeness of information provided, the procedures performed by an Authorized External Assessor to validate such information, and HITRUST's independent confirmation that the work was performed in accordance with the HITRUST[®] Assurance Program requirements, the following platform, facilities, and supporting infrastructure of the Organization ("Scope") meet the HITRUST CSF[®] v9.3 Risk-based, 2-year (r2) certification criteria:

Platform:

- Aridhia DRE residing at Microsoft AZURE

Facilities:

- Microsoft AZURE (Data Center) managed by Microsoft located in AZURE Regions - West US 2, East US, United States of America
- Microsoft AZURE (Australia East) (Data Center) managed by Microsoft located in Australia
- Microsoft AZURE (North Europe) (Data Center) managed by Microsoft located in Ireland
- Microsoft AZURE (West Europe) (Data Center) managed by Microsoft located in Netherlands
- Microsoft AZURE (UK) (Data Center) managed by Microsoft located in United Kingdom of Great Britain and Northern Ireland

The certification is valid for a period of two years assuming the following occurs. If any of these criteria are not met, HITRUST will perform an investigation to determine ongoing validity of the certification and reserves the right to revoke the Organization's certification.

- No data security breach reportable to a federal or state agency by law or regulation has occurred within or affecting the assessed environment,
- No significant changes in the business or security policies, practices, controls, and processes have occurred that might impact its ability to meet the HITRUST Risk-based,

6175 Main Street
Suite 400
Frisco, TX 75034

2-year (r2) certification criteria, and

- Timely completion of the HITRUST Interim Assessment for r2 Certification as defined in the HITRUST Assurance Program Requirements.

HITRUST has developed the HITRUST CSF, a certifiable framework that provides organizations with the needed structure, detail and clarity relating to information protection. With input from leading organizations, HITRUST identified a subset of the HITRUST CSF controls that an organization must meet to be HITRUST Risk-based, 2-year (r2) Certified.

HITRUST performed a quality assurance review to ensure that the control maturity scores were consistent with the results of testing performed by the Authorized External Assessor. Users of this letter can refer to the document [Leveraging HITRUST Assessment Reports: A Guide for New Users](#) for questions on interpreting this letter and can contact HITRUST customer support at support@hitrustalliance.net. Users of this letter are assumed to be familiar with and understand the services provided by the organization listed above, and what specific services are being used by the user organization.

A version of this letter with a more detailed scope description has also been issued by HITRUST which can also be requested from the organization listed above directly. A full HITRUST Validated Assessment Report has also been issued by HITRUST which can also be requested from the organization listed above directly. Additional information on the HITRUST Assurance Program can be found at the HITRUST website at <https://hitrustalliance.net>.
